

# AI A I A I

**TMA-2 is a modular headphone with professional sound quality, award-winning design, and fierce loyalty from customers and music makers around the world**

The TMA-2 modular headphone exists to serve the highly nuanced expectations and needs of discerning audio consumers - whether for everyday listening or music creation.

Our one-of-a-kind approach ensures an individualized and enjoyable product experience for each user, longevity of use, and remarkable premium performance and materials.

**Modularity is the ability to upgrade as technology evolves, extending the longevity of every product and creating less waste for the planet**

The foundational belief of AIAIAI is that life is rarely static; therefore, headphones should be able to adapt whether a listener is at home, in the office or on the go.

Music makers can tailor the system to any creative context, from studio production and audio editing, to DJing or listening on the go.

*"AIAIAI has honed in on one of the most significant cultural trends in the world of music production - namely, the move towards modularity, customization, and upgradability."*

**XLR8R**

*"The TMA-2 system got me away from compromise - rather than finding the best fit I could actually look for the right fit."*

**Resident Advisor**

*"If you want headphones that will last for years or even decades (dare we say: forever?), infinitely repairable, and upgradable - AIAIAI's offering will meet these needs like no other on the market."*

**IBTimes**

*"The TMA-2s can be easily customized in configurations ranging from sub-\$150 cans perfect for Beats lovers who want to step up their audio game, all the way to \$250+ monitors aimed at pros."*

**FastCompany**

*"Excellent-sounding headphones that feature a unique modular approach."*

**DJMag**

*"AIAIAI's modular headphone design sets them apart from the rest. With configuration options from the headband to the speakers to the ear cushions, and even the cord, it's sure to satisfy any audiophile or music professional. The TMA-2 headphones are the star of the show with ultimate personalization."*

**MixMag**

*"AIAIAI ensures that the buying process itself is part of the enjoyment, and you get exactly the audio equipment needed for your aural purpose and pleasure."*

**GearPatrol**
